

Dream With Me

verse 1

*If you open your eyes
And you stare at the sun
And you look at the future
Already begun
Would you open your heart
Would you let in the light for me?
If you open your mind
And get rid of your fear
It's me you can lean on
Cuz I will be here
Would you open your heart
Would you let in the light for me?*

pre-chorus

*I do believe in brighter days
There must be something to hold on to
So I'm gonna make that change*

chorus

*Would you dream with me
Then I'll dream with you
Would you dream with me
I believe when you believe in me
I believe when you believe in me*

bridge

*When you're stranded in the dark
And that darkness fills your heart
Don't let go of your beliefs
Listen to your inner voice
Don't hold back and make some noise
We'll make them believe
That you can dream with me
Would you dream with me
Then I'll dream with you*

verse 2

*As we travel the world
We're spreading the news
Together we're building
The life that we choose
And we open our arms
And we'll let in the love today
When times get hard
We pick ourselves off the ground
Enjoying life again
Cuz every day counts
And we open our arms
And we'll let in the love today*

pre-chorus

*I do believe in brighter days
There must be something to hold on to
So we're gonna make that change*

chorus

*Would you dream with me
Then I'll dream with you
Would you dream with me
I believe when you believe in me
I believe when you believe in me*

chorus

*Would you dream with me
Then I'll dream with you
Would you dream with me
I believe when you believe in me
I believe when you believe in me
I believe when you believe in me*
